## EXPERIENCE

### Adtrak, Nottingham — *Junior web designer*

June 2019 - Present

Here, I worked with a multitude of SME businesses. My role involved creating websites that had the intention of generating leads for our clients.

Duties include:

- Conducting user research.
- Holding UX discovery meetings.
- Designing wireframes and site maps.
- Making wireframes and high fidelity prototypes.
- Managing a large workload.
- Working in a multi discipline team.
- Giving presentations to my colleagues.
- Coding using modern web languages.

### Volcano, Nottingham — *Freelance Front-end developer*

January 2018  - May 2019

I joined the company as a freelance developer. My role was to work with a designer, and code a bespoke wordpress website.

### We are JH, Nottingham — *Front-end Intern*

April 2019 - June 2019

Whilst I was in my second year at university. I came into the office to gain some experience of what it was like working in the industry. I was set tasks by the front-end team that enabled me to expand my skill set.

## EDUCATION

### BA Digital arts (web design) — *Expected 2:1*

September 2017 - June 2020

### Fda Digital arts (web design) - Merit/Distinction

September 2017 - June 2019
